In summer, we all look for ways to beat the heat. We naturally gravitate toward the light, the sheer and the silver – nature's ultimate cooling metal. Gossamer fabrics and shimmering wallpapers lower our temperature while rock crystal objets d'art, which are elegant any time of year, evoke images of ice in a cool, refreshing drink.

“In **Endless Shimmer** we wanted to capture the beauty of rock crystal - how a little roughness of nature is embedded in its clear forms – so we united a sheer linen effect with a strong shine.”
– Scott Bodenner, designer for Chella Textiles.

Endless Shimmer in Opalescent (7900-113) is a sheer made of 95.5% solution-dyed acrylic, 3.2% Trevira CS and 1.3% Lurex from Chella Textiles. Woven in Germany, Endless Shimmer is lightfast, resists mildew and stains and is machine washable. Manufacturer’s suggested retail price is \$256 per yard.
