Simple and bold, great black-and-white photographs deservedly become modern classics. Inspired by photography's bravura, Chella Textiles celebrates its 10th anniversary by casting its own modern classics in the pure stark beauty of black-and-white.

"Our **Shadows & Light Collection** sheds a high-contrast new light on our solution-dyed acrylic jacquards, velvets, chenilles, matelasses and sheers – and invites a closer look at what has defined us for a decade: livable luxe whose durability defies logic," says Chella president and founder Lee Menichella.
